

NationBuilder Assistant

Ask Claude anything about your NationBuilder database — no technical knowledge needed.

 Search & Filter People Find anyone by name, email, location, support level, tag, or custom field. Combine multiple filters at once.	 View & Update Contacts Pull up a full profile, update phone, email, employer, support level, and more. Create new contacts on the spot.	 Tags Add or remove tags from any contact. Search everyone with a given tag. New tags are created automatically.	 Lists & Segments Browse saved lists, see who's in them, and create new ones instantly for mailings, events, or outreach.
 Memberships View membership records, check types and dues, and create new membership records when someone joins or renews.	 Events List upcoming and past events or pull up details — date, location, capacity — on any specific event.	 Petitions See all active petitions and check current signature counts on any individual petition.	 Mailings & Broadcasts Browse sent and scheduled mailings — subject lines, send dates, and recipient counts at a glance.
 Website Pages & Sites List all your NationBuilder pages — basic, event, donation, and more — and view details on any page.	 Automations See what automated workflows are running and check who is currently enrolled in each one.	 Org Relationships Find every contact linked to a specific employer or organization — great for corporate or coalition research.	 Paths & Journeys View engagement paths and see exactly where each person is in their journey — and whether they've completed it.
 Imports & Data Check import status: how many records were created, updated, or flagged with errors.			

■ Just ask naturally:

"Who are our members in Lea County?" · "Show me everyone tagged Legislator" · "Create a list called 2026 Donors"
